Proud Member:

### Welcome!

Resources for Educational Distinction (R.E.D.) serves as a clearinghouse for nationally competitive scholarships and fellowships. In general, these scholarships and fellowships are designed for creative, highly driven, academically strong, visionary students. Some are for graduate/professional study in the U.S., while some involve study abroad.

These opportunities are open to all qualified USF students who wish to apply. Do not count yourself out! You may be a strong candidate for a particular scholarship or fellowship.

We will:

- help you match opportunities to your interests or plans
- identify and coordinate mentors, services and resources for your endeavor
- assist and support you throughout the application process
- foster personal growth, leadership skills, international understanding, creativity, and a desire for public service

Let's talk! Spread the word: *BULLS with vision find R.E.D.*

Mr. Mejias  
Advisor / Coordinator
