OUR MISSION AND PURPOSE

Founded in 1960 by Grace S. Allen, the wife of Dr. John S. Allen, USF's founding President; the Women's Club was the first organized group on the campus. Employees of the University, spouses of University Personnel, friends, parents, alumnae or other persons interested in the Club's goals are all eligible to join the USF Women's Club. The purpose of the USF Women's Club is to promote social and cultural activities among its members.
SERVICE
Club members have the opportunity to volunteer their time in support of many areas in the University community. Among the service projects have included WUSF Telethon, Metropolitan Ministries and the USF Library.

SCHOLARSHIPS AND LIBRARY FUNDS
Fund-raising events are usually held in the spring. Thanks to our members and matching funds from the state, the Grace Allen Scholarship Fund is now fully endowed, and awards several tuition scholarships each year. We are now working on the Grace Allen Library Endowment, the proceeds from which are used to purchase much needed materials to support instruction and research.
